I recently came across the Lotus Bleu Boutique. They sell beautiful bedding, pillows, furniture and accessories . I was also delighted to stumble upon their Interior Design Portfolio.

Take a look at these retro/vintage/modern rooms.

Gorgeous! Generally I can pick out a favorite element in a room, but there are so many great touches in these rooms. I love the look of the walls-to-wall Roman shades.

Anyone recognize the roman shade fabric in the first and third pics? I've been seeing this fabric pop up here and there as of late and am totally smitten!
