

DESIGNERS: Busk & Hertzog

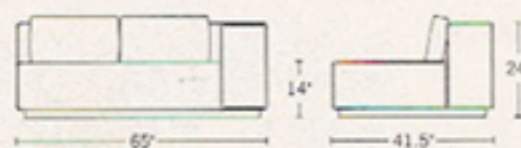

The Vega Collection (2005) provides a unique solution for environments used for socializing, lounging and sleeping. Created by designers Busk & Hertzog, Vega consists of a multifunctional Sofa, Chaise and Ottoman. When a larger Sofa is needed, the Chaise and Ottoman are ready to oblige; slide the pieces together to create the required size. Should a sectional be in order, three or more pieces can be quickly combined. For further flexibility, the arm of the sofa can be positioned on either side and changed on a whim. The Sofa and Chaise transform into comfortable sleepers by sliding the seats – which rest on metal bases with internal tracks – then simply fold down the back of the chaise or arm of the sofa. Use a flat surface for the best fit. Two down pillows are included with the Sofa. Made in Denmark.

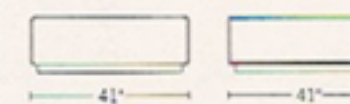

SWATCHES AVAILABLE.

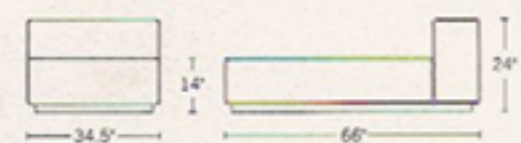

**MATERIALS:** Wood frame with black lacquered metal base; seat; black lacquered metal base with adjustable caps; polyurethane cell-foam; 100% cotton upholstery.
