This year's **Decorator Showcase**, (which opens to the public on Saturday, April 30th) is filled with design ideas and inspiration from the most top-notch designers in town. I got a sneak peek today, and wanted to share a few of the highlights. But, I can't show you all the fabulous rooms, of course. You'll just have to go and see for yourself.

Jeannie Fraise, interior designer and owner of **Lotus Bleu** in Hayes Valley created the Studio Craft Room. It's such a fun, cheery feast for the eyes for both adults and kids. I love the built-in nook, the tree house closet, and details such as the apple green-trimmed vintage chairs upholstered in a Madeline Weinrib fabric and the black-and-white striped rug, also by Madeline Weinrib. Fraise chose "Mimosa Flame" wallpaper by Cole & Son for the backdrop behind the desk area.
